ABOUT US

As a premier creative arts hub, **Performance Arts Culture Cessnock (PACC)** has become synonymous with exceptional live entertainment and cultural experiences of the highest calibre.

Since opening on 22 November 2008, PACC has not only built a regular audience for concerts and plays, it has also become a significant player in audience development and community engagement, with continuing year-on-year growth in terms of audience attendance.

In 2023 alone, PACC welcomed nearly 27,000 visitors, creating a vibrant community space that has witnessed numerous sold-out performances. This thriving cultural haven is dedicated to providing our audience with unparalleled live entertainment experiences, ranging from stellar Australian and international theatre productions to mesmerizing dance performances; unforgettable comedy shows to original live music and acts that capture the essence of the music legends. In short, our commitment is to offer something for every taste and preference.

We recognise the rich tapestry of flavours that our Hunter Region has to offer, and aim to showcase its distinctive craftsmanship. To align with this ethos, PACC is currently seeking **expressions of interest from local beer and wine suppliers** interested in partnering with us for a 12-month period, with the possibility of extending this collaboration for an additional 12 months.

If you are a passionate local producer dedicated to delivering exceptional quality and embodying the essence of our vibrant Hunter Region, we invite you to submit your expression of interest. This partnership promises not only to elevate the sensory experience for our patrons but also to contribute to the promotion and celebration of our local community.

APPLICATIONS CLOSE MONDAY 6 MAY 2024
